In fulfillment of:  Major  Minor

*Students who take courses that are not listed under the major and minor requirements (<https://mems.ucdavis.edu/major-and-minor>) can petition to have those courses counted for credit to fulfill the requirements of the MEMS Major or Minor. Students **must** provide a syllabus that shows a clear focus on material related to the medieval and early modern period. Generally, courses focused on material before 1700 CE are good candidates to fulfill such requirements.*

*Students **must** obtain signatures from both the course instructor and the MEMS Director in order for the course to fulfill the major or minor requirements. It is recommended that students submit this paperwork at the beginning of the quarter.*

*If there is any doubt that a course will count for the degree, students should consult their instructor as well as the MEMS Director at [MEMSdirector@ucdavis.edu](mailto:MEMSdirector@ucdavis.edu).*
